Undeveloped land

Commuting vs On Campus

Traffic pattern

Train schedule

Calculations

Break up parking lots/measure spots

Find out how many students have cars

Engineering students who drive cars

Car Permits Registered with Parking Services

Teachers & TAs Commuting to Engineering

Compute how many permit holders use meters

Issues

No overflow parking

No priority parking for junior and seniors

Tickets

Less affordable parking spots

Time of day

Can't get to class on time

Permit classification vs no permit

Parking far from classes (over 10 minutes of walking)

CS Permit - cost vs reality of use

Solutions

Extend Parking Meters to 4 hours if meter is near academic building

Priority parking for Juniors and Seniors [ppl who spend more time here]

Factoring out faculty b/c these would be students parking spots

Colored permits based off of major

AM vs PM Parking Permits

Permit based off schedule

Adding more shuttle services for Engineering
